8253/K9617D BLACK METALLIC TOPCOAT Nonstick Coating
System**

Dear Ms. Ly,

All food-contact coatings by Whitford are produced in accordance with good manufacturing practice and by the good faith and more than forty years' experience of the Whitford Worldwide Companies.

For all commercial and noncommercial food contact applications operating to temperatures equal to or less than 500°F (260°C) continuously and/or 600°F (315°C) intermittently, this letter provides our assurance that the Xylan[®] 8294/K9616D BLACK PRIMER(EU), 8253/K9617D BLACK METALLIC TOPCOAT, Nonstick Coating System described above is permitted for use in contact with food in compliance with the Federal Food, Drug, and Cosmetic Act (the "Act") and all applicable regulations, including 21 CFR 175.300 ("CFR" is the abbreviation for "Code of Federal Regulations" or the "Code"), provided it is processed in accordance with Whitford's instructions and used in compliance with the Act and regulations.

Section 175.300 of the Code states that "Resinous and polymeric coatings may be safely used as the food-contact surface of articles intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food, in accordance with the following prescribed conditions:

The coating is applied as a continuous film or enamel over a metal substrate, or the coating is intended for repeated food-contact use and is applied to any suitable substrate as a continuous film or enamel that serves as a functional barrier between the food and the substrate."

¹ "U.S. FDA" and "FDA" are the abbreviations for the United States Food and Drug Administration.

Xylan[®] is a registered trademark of Whitford.
